NEW YORK

Dear Miss Tarbell:

Charlie Armstrong will give you proofs of the line cuts for the part of the Lincoln which were to be electrotyped from magazine cuts.

The Walker Engraving Co (upstairs) has six more (on list herewith) which they are ordered to deliver to you. The full page map has been ordered from the engravers Bradley & Coates. It will probably take some time to get this so I think you need not wait for it but just mark the place where it will go instructing printer to leave

a full page blank for it. All these full pages are backed by text and proofs of any cuts that are to be full page should be marked "not blank back".

All that will be necessary for you will be to number these cuts when you get proofs and put in blue pencil on margin of galleys corresponding numbers showing where the pictures belong in text. Then if you will turn over galleys, proofs & cuts to Mr. Everitt you will have no more bothers.

Regretting that you should have this - added

Sincerely yours

H. W. Lanier
