Don't run away from life
& life begins where you are as bad
with what you have in your hand.
where you exist

Myself & ask you to subject
yourself to the discipline & labor
& seed-time of growth - Because
only in that way are you going to
be able to understand the surprising
portion of the world you are entering
Don't failure to the workers who
tell you there's nothing attractive in the
world - nothing to inspire you as the

are clearly unfolding today for youth

You need this power of steady growth

Sir

If you are stop where you are -

This hard road of growth is just as
more important than ever before because
the problem you will face one to a higher
degree a dual - problem - than ever before -
because the opportunity of the world requires
a higher new mutability to suppose before shall have
unsuspended to see.

There also calls of a world without
opportunity - don't know their world - they are
living in a world of the past. No it is the
further to work over people & move it the dense
are closed - closed only to the vicinity - there
were never so many definite calls for
right action as today -

(1) Molecular world - Distribution -

Social world - Mean - integrity with
a higher social standard -

Excitement not growth - necessarily
certainly not if our many unrelated
things like the mutilation faders all at 1

See note on mutilation
