January 23, 1925

Mrs. Caroline Hanks Hitchcock,
Cambridge, Mass.

My dear Mrs. Hitchcock:

I have been out of town for a week and returning find your letter of January 14. I am quite sure that it is all right to let Mr. Warren have the manuscript, and I am having the box that you sent me packed at once and will follow your instructions to send the papers on to him.

I advise you to let Mr. Warren have them because I feel convinced that he works with dates and facts as you say and that he bases his conclusions entirely on documents, also that he is trustworthy. I do not think he has any theory to support in this matter, that he will put down just what he finds and nothing else.

Dr. Barton writes me that he has documents in his forthcoming book which will settle the controversy permanently.

Sincerely yours,
