Miss Ida M. Tarbell,
My Friend,

That you are interested in "Mormonism" is my only excuse for writing you. I was not born in the Church, but joined when I had proved that it was capable of giving me the things I wanted in this life, carrying out any ideal; if it can do that, reason tells me that it is also capable of giving me also my spiritual ideal, but I am a materialist, and will speak from that point of view.

This country is divided into three factions, each striving for complete control. Organized Capital, Organized Labor, and Organized Neutrality, that is, the State. The chief function of the State is to protect Organized Capital, private property and adjust disputes. Organized Labor is itself divided into two factions, the Labor Union and Political Socialist. Now Capital competing for profit can not protect its labor from the competition of machinery; if you want the details of this idea see Bellamy's "Looking Backward" Now Mr Bellamy had the correct economics, but-

he was short on phycology. There are two different kinds of people in this world, as different as cats are different in nature from dogs, they are harder to distinguish as they both look alike, Conservatives and Radicals. If you want to go into this idea in detail, read "Penrod and Sam", by Booth Tarkington. The attitude of Penrod and Sam to Georgie Basset, is the attitude of all radicals to all conservatives, it is prejudice. Now all radicals have the same ideal, but different tactics, our tactics are to have a strongly centralized organization, pay 10% of our income to the organization, and to back it up with force if necessary to protect our property, that organization has gone into business, same as Mr. Rockefeller, and like him, we want to own the earth; but unlike him we are independant of both organized Capital and organized labor; we are Capitalized labor, and capable of protecting ourself and our property and above all our women.

It is inevitable that Capital and Labor should clash, the first great battle will be the Rail road brotherhoods vs. U. S. Govt. as self preservation

is the first law, the Govt, (Capital) will win because it is the stronger, the unions disorganized, but Labor United in political Socialism. Is not that simple reasoning how there are about 10 "Penrods," to one "Georgie Basset," that is a fact that you can verify yourself, but while the radicals are far in the majority, the Georgie's have the most money, Capital is conservative. When the Radicals get possession of the govt. organization, the conservatives will take their money and depart, those who can, to a stronger centralized govt. where they can get protection, leaving the country without a medium of exchange, the Socialist party is not strongly enough organized to control the situation.

A violent revolution is a biological necessity to destroy the degenerate, and in order that degeneracy do not reapear, polygamy is necessary. Every thing is provided for in nature, when the best men, mentally and Physacally get all the women, the race will improve instead of degenerate. Here is where I "cross swords," with my wife, she says that polygamy may be endured, but can never be successful, she says that

a man can not love equally two or more women, I say that there being a natural reason for it, and the time having arrived when there is no opposition (it is not natural for the Georgies, they are different) it can, will, and must be succesful. But that is for the future. As we are the only organization capable of living through the storm, we are capable of putting into effect the Socialists Industrial Ideal, so we are capable, after the fall of competetion, to make polygamy succesful.

If you visit Salt Lake City, my wife and I give you a cordial invitation to you to visit us and we will go into this question as thoroughly as you wish.

As this is not official, I can not give you permission to use my name as authority for the above.

Hoping sincerely to meet you we remain,

Yours very truly
