June 12, 1922

Mr. A. G. Warren,
Industrial Museum Committee,
Worcester, Mass.

My dear Mr. Warren:

Thank you for your courtesy and promptness in sending the material for which I asked.

I have the two photo books and when I am through with them will return them to you.

The picture of the seals which you sent under date of June 9 is quite satisfactory; and I am sure we can make something of the group picture showing Mr. Farrell as a wire drawer in 1861

I have been wondering what became of the other men in the group. Have any of them risen to executive positions in the wire industry or in any branch of steel? If so, I should like to note it.

Again, I notice that several of the men carry insignia of their trade, and while I recognize the hoop and the shovel handle, I do not know what the fourth man from the left in the fifth row from the bottom has in his hand. Could you tell me?

I want to thank you very much for this interesting picture of which I feel sure the McClure Magazine art department can make good use.

Sincerely yours,

Ida M. Tarbell Collection, 1894-1944. Allegheny College Pelletier Library
