Proposal Overhauls Dorm Government

A sweeping re-organization of Allegheny's dormitory administration has been taking place for several months and the outcome, a proposal for a complete new system, will be announced at the Associated Women Students Annual Meeting on Sunday, January 23rd.

The plan, drawn up by Deans of Students John R.O. McKean, head of the Department of Student Affairs, and IFC president Dave Flissinger, would, if adopted, unite all upperclass residence halls into one governing unit, the Resident Advisor Board, which would make, administer and adjudicate all rules and regulations governing the halls.

As a result, AWS would be able to present a unified front to the dorms, while the present system is to govern the women of six separate dormitories. The first step will be this Sunday's unveiling of the system at an AWS meeting, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on whether or not to present a mass meeting of AUC, ASG and AWS, which will vote on Dorm Government

The new proposal for an all-college dormitory government, the Resident Advisor Board, is a masterpiece of planning. It provides a new level of student responsibility for his own affairs; it unifies various segments of the student population and makes for a new efficiency in regulating dormitory life.

Under the proposed system, both the individual members of the board and the board itself are given added responsibility; the women advisors, filling the combined roles of AWS Seniors, will have the prestige and responsibility analogous to the present upperclassmen resident advisors; the Board as a whole will assume much of the judicial and administrative responsibility now held by the Dean of Students.

In reorganizing fraternities and all men and women's dormitories, the Resident Advisor Board will be responsible for all college housing as well as the means for cooperation and understanding among all college residents. For example, this board would allow the men to have a hand in establishing women's hours—which after all effect the men too.

The third major advantage of the new proposal is its efficiency. By having fewer people responsible for work now done by many, dorm government can be handled more easily and more efficiently, by creating a Resident Advisor Board, to be the official voice for the college housing, this proposal will eliminate much of the confusion and inequity of the present court system. Directly or indirectly, this board would handle all infractions of college and RAB housing policy, leaving academic offenses to College Court, and strictly controlling infractions, (i.e., Rush), to L.F.C. Court.

Thus this proposal may have technical difficulties; its basic conception is sound, in the interests of student responsibility, all-college unity, and all-college efficiency, we urge that this proposal be adopted.

"25" Words

For the multitudes who have been waiting all week to read other people's suggestions for the "Greatest thing that could happen at Allegheny College" we reprint below our sole response, with the suggestion that if all those gripes we hear so often about not having time to write down, they probably aren't very important.

"The greatest thing which could happen to Allegheny College would be to have a student body with enough understanding to pose questions which would engender courage to ask in such time as will enable enough energy to search for the answers,"

-Peggy McNally, '67

Sesquicentennial College Library Committee Investigates Expansion

(Reviewer's note: This is the fifth in a series of articles by members of the Editorial Board analyzing various problems and prospects facing Allegheny College in its Sesquicentennial Year.

In Allegheny College, there are several library problems in excellent opportunity to 'see and be seen,' that the rest rooms are equi-

The library is budgeted about half of this amount and the remaining funds come from investments, gifts, and special collections.

The Faculties believe that the library's collection in all given areas is a great emphasis on the willingness of the libraries to purchase and review book lists and plans or- der English language books. This library is interested in obtaining as many Modern Languages, Philosophy, Political Science, and Sociology departmental funds as are made available. Between approximately 300 or more books, ordered each year.

Mr. Phillip Benjamin, the college librarian, also spends a few hours of weekly effort for book lists and tries to fill in areas where the library is weak.

Mr. Benjamin and the Faculty Committee feels that a fairly generous amount, $11,000, is needed to improve the facilities and the service of the library. Last year, for example, the library was assisted with $17,000 by the committee of 17 departments to help correct the deficiencies in present periodical holdings. About 60 new periodicals were recommended for subscription, of which, $17,000, were chosen for them have been requested.

Shelving Problems

Shelving is also a problem. Wooding and storage are not suffi-

Most students are probably not aware that Allegheny has an outstanding book collection, second only to Harvard's, Mr. Ed- win Wells, a leading bibliophile from Philadelphia, has high re- gard for Allegheny College's Library and recently published a book on "Navigating Early New England Provinces in the 18th Century," a book of special in- terest to scholars doing research in early New England. For the next two years the library hopes to purchase additional volumes of our holdings.

According to the President, Pan- leter Allegheny's Library is one of the best in Western Penn- sylvania. Of course, Allegheny's students do not expect to have to work hard to discover anything in the library. For a small liberal arts college this is financially impossible. But adequate records do enable students to make use of libraries.

Inter-Library Loan

What we can't buy, we can borrow. Some libraries at Western Reserve won't lend books to undergraduates or send books in print, in such instances students are referred to the library. About the possibility of the li- brary subscribing to a inter-library loan service, perhaps in some instances the student may be referred to another topic, but for the most part diligent searching combined with inter-library loan should yield results. Students need to engage in the search for the resources of the library, it's more than a study hall.

Fans, as the basketball team played well. Were crowded with cheering Gator fans. Wayne State 67-49. Both games Eastern Michigan 71-65, but lost situations. Thes and a tip in by Jim Sample, '66, hit on four foul shots and walking off with their shoes. Thes and a tip in by Jim Sample, '66, hit on four foul shots and walking off with their shoes.

On Monday, January 18, the Gators scrambled to throw shots from two successive 1 on 1 to go ahead in the second period. The score now stood 45-16. The weight was separatly on Bob Kunz's shoulders. He had to win, but, not satisfied with a mere win, Kunz fought his way to pin in the second period.

The Gators were well in front for most of the second half and at 4:00. Coach Berate Sabol feels this victory showed the team to be capable of solid wins. This victory showed the team to be capable of solid wins.

On Monday night, the Gator wrestling team upset Thiel, the defending PAC champions, 15-1. The formula for the formula for the final three Gators; Dominant, could not field a squad capable of taking the Gators as a whole.

On Monday night, the Gator wrestling team upset Thiel, the defending PAC champions, 15-1. The formula for the formula for the final three Gators; Dominant, could not field a squad capable of taking the Gators as a whole.

The lead changed hands several times, but the Gators could not pull away. Then, with 35 seconds to go and the score tied 65-65, Jim Sample, '66, hit on four foul shots from two successive 1 on 1 situations. Thes and a tip in by Jim Sample, '66, hit on four foul shots from two successive 1 on 1 situations. Thes and a tip in by Wanye Wolfram scored two seconds later, just missing a first in the 100-yard freestyle. Frashman, Bill De Witt, narrowly missed a first in the individual medley and placed a close second in the 200-yard backstroke. Sophomores Jim Zeek and David Olson also turned in outstanding performances.

On Saturday night was a different story. The Gators played well in the first half and were behind by only a score of 32-33. The second half saw the Gators turn cold and score only 19 points while Wayne poured in 35. Monday night, the Gators were at Grove City, where they lost to a much taller team. The Gators shot a 40% from the floor and 60% from the foul line, but were outclassed on the boards, which proved to be the difference as they went down to defeat 75-64.

The lead changed hands several times, but the Gators could not pull away.
