OFFICE OF THE EDITOR

August 19th. 1930

Dear Mrs. Tarbell

I think this should make a splendid article. In writing it, however, bear in mind that we have our own Department of Child Training to which prominent psychologists and psychiatrists - specialists in child training - contribute.

Some of the articles have been:

The Relations between the Home and the School -

What Causes Fear in Children
Fear and Sex Education
A Guide for the Feeding of Children
Play grounds etc etc.

(over)

These articles are all reviewed
with details. By keeping a
general survey of the field you will
avoid any duplication of their content.

Otherwise, I have no
criticism to offer. I feel the
outline is completely satisfactory
with all your notes

Yours truly
O. S. Peck

O.S. - My secretary is away today
