

August 28, 1931

Dear Miss Carroll:

I am sorry that there has been a delay in this Arizona article. My sister has been ill in the hospital and I have been looking after her a bit. But here is the manuscript and with it two or three possible illustrations. If you could use the Punch cartoon as a full piece or an inset I think it would be amusing. By all means you will get it back to me, won't you?

If you decide to use either of the views I send, possibly I better make note to go with them. They are extraordinary-interesting and beautiful spots though they do not give an adequate idea of the Sahuaro forest.

I am glad Mr. Graeve likes the Lincoln article we talked about. You should see it first as I told you.

I have two or three more subjects in mind - things I have been thinking about vaguely for some time; possibly we can get together again after the Arizona article is disposed of, and see if you think there is anything in them for the Delineator.

And please let me know if Mr. Graeve has any idea in what month of next year he would like to use the prohibition article. I doubt myself if prohibition is to cut the biggest figure in the coming campaign, but as I say we can talk about all this after Arizona is disposed of.

I enjoyed our talk. I hope we can try it again soon.

Very sincerely

Miss Eleanor Carroll
