

October 7, 1933

My dear Mr. Egeberg:

I have just returned to New York and I find awaiting me your interesting letter of September 28th. The photographs, too, have arrived. This material gives me just what I want for the piece of work that I have on hand. I hope I can use it to your satisfaction, as well as to help people who are attempting relief by less intelligent methods.

If only the whole country could manage its relief work as Gary manages this the suffering and despair about us would be enormously reduced.

Please thank Mr. Gleason for his kindness and believe me

Gratefully yours

Cur
