December 15th., 1910.

Dear Miss Tarbell:-

To-day is the date I promised to return your money but I was disappointed in a loan I am to receive. The party I was to get it from could not close it up to-day on account of illness. I do not want you to think I am careless about this for I will send it to you just the minute I receive the money. I am expecting it surely this week and I will send a check to you immediately. I am sure it did help me greatly and I appreciated it and am sorry I cannot send it back on the date promised. But since my mother's death I have suffered more than anyone knows in many ways, and financially as other ways.

I received a letter to-day about your article and I sent a postal saying I would do it at once if sent.

I find I shall have to go away on a trip for a short time and have decided to go and visit my brother in Canada. I will do my typewriting just the same there and if you can send it to me there if you have any while I am gone I will do it just the same. It will take a little longer to send it and if you think it not safe do not send it. But it could be registered just the same and I would like to do all you have for me. If I go I shall not go before next Wednesday and will do this one you are sending at once and return to you.

With every good wish, and hoping you are real well at this time, I am

Sincerely yours,

Anna M. Dodd,
