New York, N. Y.

Dear Miss Wolfe:

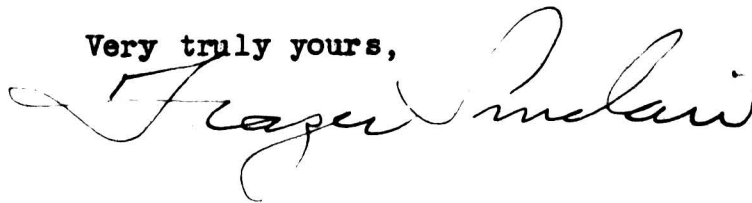

I would be very glad to give Miss Tarbell any information I have about the bottle industry.

I am afraid that Mr. Goodell has given her a too optimistic impression about the information I have regarding mergers in this industry.

I merely retailed to him one day gossip and impressions of the mergers which have taken place between several bottle companies. Neither facts nor figures are available, so far as I know.

If Miss Tarbell is interested in material of this kind, I will be happy to meet her whenever she desires.

Very truly yours,

Frazer Sinclair
