

July 21, 1921

Mr. H. S. Dennison,
Framingham, Mass.

My dear Mr. Dennison:

I have spent a couple of days since my visit with you in Framingham ploughing through my accumulated work, and find to my relief that I am free to go at once at the Brunswick matter. I want to do it before it blurs. I shall go to Connecticut Saturday with my notes, and put it through as quickly as possible.

If the package of material which you were to send has not already left Plainfield, will you not have it sent by Parcel Post to Bethel, Conn., R.F.D.#25? Of course, if the packages have already been sent, they will be forwarded from here.

I am enclosing my expense account as you suggest. We will leave the rest until the goods are delivered. This is simply following my usual custom.

I had a really delightful time with you and the family over Sunday. It has all been great fun - Brunswick and Framingham. It is not often that I have a piece of work from which I carry away so much flavor of real things. I am anxious to really get into your organization. I am free to say that standing entirely on the outside and peering over the fence as I have, it seems to me mighty good, and of course that's the reason I want to get over the fence.

I expect to be in Boston for part or all of the Safety Conference - September 26 to 30; and if nothing gets out of joint in my schedule between now and then, possibly you would let me come out directly after that jamberee.

I am afraid I cannot get to the Antioch opening, but I shall be keeping my eyes open and I am writing today for any printed matter that they may be sending out.

Give my love to Mrs. Dennison and the girls and pull the ears of the dogs for me.

With real appreciation of the care you took to make my little investigation easy and delightful, believe me

Faithfully yours,

New York, July 21, 1921

Mr. H. S. Dennison
Framingham, Mass.

To

Ida M. Tarbell

Dr.
