Dear Miss Tarbell,

Are you ever in New York any of these hot days? For your sake I hope not, but for mine I feel otherwise. Please do not make any effort to come in town because I would like to see you, but should it be possible for us to meet for a little chat I would appreciate your letting me know when and where.

The Mrs. Roosevelt article, under the title "The Portrait of a Lady" will be in the October book. Mr. Graeve hopes to have another contribution from you in February - either the prohibition analysis or the western article, whichever you finish first. So some time this month or next let us meet if we can and exchange the news on how things are going.

With best wishes,

Sincerely yours,

Eleanor Carroll
