

April 23, 1929

Mr. James A. Campbell
Knox College
Galesburg, Ill.

My dear Mr. Campbell:

I was much pleased to receive your letter of April 9, with the report of the students who followed my conferences that had handed in readings and received credit.

I am glad that you regret the omission of that last week. I have had a feeling of an unfinished job on my hands ever since, something that always annoys me. However, I don't see that we could have done any better.

And thank you for the list of business biographers. It is a goodly list. I hope that Mr. Stinson will give the course he has in mind. It seems to me an excellent idea.

Please remember me to Mrs. Campbell and the family. I did enjoy the evening I spent with you. It turned a notion that I have long had of owning an orthophonic and a big set of records into a determination. I am going to carry it out as soon as the great day comes when I can free myself from town and go to live in the country.

How fine about your son Raymond! It's a great opportunity for him, and I congratulate him as well as you and Mrs. Campbell.
