Dear Mr. Burton:

I wish you would look over the article I am sending here and see if there is anything in it for the Cosmopolitan.

I am going to follow it with one which will be called "The Grand Round-up," in which I undertake to show that the NRA has behind all its undertakings good sound laboratory work, both inside and outside industry.- things that men and women have been sweating to prove practical for thirty years or more.

There is no question at all in my mind that the reason the public has been so open-minded to the New Deal is because of its roots.- ~~which~~

I hope you are well these days and if there is ever a time when you are in town and not over busy I would like to come in and shake hands with you.

Very sincerely
