

Oct. 30 - 1905 -

Dear Miss Tarbell, your letter

has just come - It is a mixed
situation -

1st I am partially responsible
for the Cuth Square theater -
not at all for the management -
2^d I thought Miss Lanston not
ready for the stage, told her so &
therefore wished to go abroad for
study - She thinks it better to
learn on the stage now -

She has received advice from
wider men than I — & perhaps is
right - ^{191 Commonwealth Avenue.} But it seems to me need
to creep before walking -

3d. I've not done a stroke of real
work since June when I was put
to bed - as you would I should be -
I am now under strict orders from
the doctor to shun all work -
Today I am going for the first
time since June to my office -
So Miss Luntz will get her

don't help from me - I really can't - But I shall see her
with pleasure - I've not seen Armes or Deland or heard from them
& I shall not meddle - because I can't - But we will see -
Yes, if you do anything, it gives a charm to further acts & — great
fatigue in due course - which is life - I'll try to advise -

Trusting

W. L. Higginson

Miss Furbell -

P.S. I am afraid to mention this
outside work to my doctor - as my wife -
but they'll know it.
