Mr. W. M. Leiserson
Antioch College
Yellow Springs, Ohio

Dear Mr. Leiserson:

Thank you for your prompt and cordial letter. It gave me real pleasure.

I have not had time to read the copies of your decisions which you were so kind to send but from glancing at them I am sure they are what Mr. Goodell had in mind. At all events they are the kind of thing I am after and I shall study them with interest.

Thank you for referring me to Mr. Hillman. I have never met him, though I have followed him from afar and always with a feeling that here was something wise and sound. So I am going to look him up now and learn more about what he has done, first in this matter of technicological unemployment and after that, well, we'll see.

I shall return the copies of the decisions as soon as I have been over them and taken off the notes that I need.

Thanking you again for your kindness in this matter, believe me with all good wishes

Very sincerely yours
