Dear Mr. Leiserson:

I have incorporated into an article which is to be soon published in the Cosmopolitan magazine the paragraphs which you wrote into your decision in the case in the printing industry which you sent me. They are ^{the} paragraphs in which you say that the decision in your judgment makes possible the development of a constructive policy in regard to workers displaced by improvements. They were just what I wanted for my simple article trying to present what to the layman is a complicated and little understood matter.

Now, my editor comes back asking for your picture, also some pictures of Antioch College, I having said that you were on its faculty. Would you be good enough to grant his request and if so send the photographs directly to

Miss Dorothy Giles

I shall greatly appreciate your co-operation.

Very sincerely yours

Mr. W. M. Leiserson
