

KNOX COLLEGE
GALESBURG ILLINOIS
OFFICE OF THE PRESIDENT

November 20, 1931

Dear Miss Tarbell:

I was amused and edified by the enclosed clipping from the St. Joseph News Press. I was gratified, too, to know that a six weeks' stay at Knox College could produce an educational result in you that entitled us to be mentioned along with your Alma Mater as responsible for your education.

I have run into a series of misfortunes in filling the lectureship this year. Just now I am angling for William Rose Benet. He seems to think that the fact that he has never taught is a barrier. I hope you won't mind the fact that I cited you and Will Irwin as examples of distinguished success that could be secured by people who also were ignorant of the art of teaching.

Cordially yours,

Miss Ida M. Tarbell,
120 East 19th Street,
New York City.
