COUNCIL OF NATIONAL DEFENSE

WASHINGTON.

STATE COUNCILS SECTION

Date

Memorandum to: Miss Tarbell

From: W. H. HAMPTON

Subject: National Defense

Here is the bantering. You will get your copy through the mail, but I thought you would like a copy from the press. This is the first girl at the Government Printing Office, who delivered in time. We used to dream of a press full of paper; then we were entitled to bits. Let's not stick at conventions since
we preach it reiterated!

Please said right into it with your
astute and acute criticisms.

"Hayn Macduff!"

"And I'll c'mon 'dam' when we have
had enough." (Macbeth up to 12 minute)

Washington is agog, alert, alive
and as jubilant with the peace cele-
bration.

I do hope the brother is convalescing
speedily and well.
