Miss Ida M. Tarbell  
120 East Nineteenth Street  
New York City

Dear Miss Tarbell:

The ambrotype you speak of in your letter of February 14th, is undoubtedly merely a copy of the Schneider photograph. I doubt very much a sitter could hold the exact pose long enough to make two exposures.

For more data on Lincoln photographs I would suggest you get in touch with Mr. Fredrick Hill Meserve, of New York City. I do not know his address. Mr. Meserve is an authority on Lincoln photographs and could probably give you much more information than we could.

Trusting this information may prove helpful to you, I remain,

Yours very truly,

Assistant Curator
