Dear Madam:

For fully thirty years there has been an uneasy wrangle between Tacoma and this city over the name of our great and glorious Mountain and a compromise has been suggested that both be dropped and "Lincoln" be substituted. The old Soldiers who fought under, and voted for him with the name of Lincoln, and because I am the Patriotic Director of the G.A.R. Posts for

This state and Alaska they wish  
me to ask you for a word or  
a line to aid them in their  
wish. Please don't say it is  
not your fight for whenever  
you are you belong to the whole  
Country, like Frances Willard in  
the world, or Edith Cavell.

If I could have a brief in-  
terview I could explain it more  
fully - but a few lines from  
you for publication in a letter  
to me, or the press, would aid  
much in giving to that Mt. the  
most appropriate, loveliest and  
deserving name of all.

Very respectfully

James H. Chase
