My Dear Sir,

I send you a correct copy of your letter of the 26th Nov. 1860, not taking the liberty to supply the omission of a word or two left out in one or two places, thinking you would like to have it just as it is. I have one other letter from you, in relation to the probable contents of the President's Message, and making some suggestion how it ought to be written, &c., but the letter is very long, and as I am my own clerk & overseer, I will not copy it until you desire it specially. The action of Congress on the currency does not distress me in the least. I made up my mind at the beginning of War to stand any thing rather than Yankee rule, & the God is welcome to all I have, if we can drive back the invaders of our soil & estabish our independence.

With great Respect,

Hon. W. Henry Foster, I am your sincere,

W. H. Field
