My very dear Mr. Tarbell:  
Kitty has just told me you were at the Park side and were leaving tomorrow for the country.  

I learned only recently that you were ill. I hope you are much better now. The news today is sad. We are all stunned.  

Yours very truly,

So—the fact, she says, and she was dead—

In fact I am not sure any you are very coherent today.

You have always been such a help to keep us balanced.

You always seem to see things clearly.

This year has been very hard in so many ways. But
now it is 1906 and I do not seem so bad.

You know, dear Miss Tarbell, that we all lose you very much.

Affectionately,

P.S. I wonder if you know that Helen Burr is in the Clayton Strain Sanitarium?
The had a mental breakdown and it looked very serious at one time. She seems better now. I expect to go there over the Fourth of July to see her. Dr. Cushing has not been hopeful in his report. It is clear she will never go back to Franklin.
at least & the step-
mother, house. She went
never to have stayed there
so long. Her money was
about four dollars, her
step mother is financing
the stay at the Sanitarium—she
nailed, and her family wanted
her to come to see
at one time. I couldn't
manage a medical
case in my home
dearly as I loved Helen: A Macintyre is test - I pressed she will be here in definitely.
