Curator of Lincoln Museum  
New Salem, Ill.

Dear Sir:

May I ask you to send me a list of the articles in your Museum which are directly connected with the life of Ann Rutledge, together with your reasons for believing them to be genuine?

This may mean the copying of the labels which, as I remember it, were attached to the few articles which I saw a few years ago in your collection. If there is any expense attending the copying of these labels, I shall be glad to pay it.

I am not interested in having a list of anything except that which refers directly to Ann Rutledge.

I shall be very much obliged for your attention to this request.

Sincerely yours

February 27, 1929
