The Holidays will soon be here. Let us have a peak at what is being suggested as Christmas gifts. A good deal of valuable and valuable aid is being offered by the manufacturers for this purpose. The former suggestions are based on a thoughtful and lucrative emphasis. It is also a timely reminder that of how they areapon to work. Last year, Coach Tyler developed a first team that was a band of compare close-up men. In the past, you have a Cap, Hirsche, Fritz, Hirsche, and others of your people who have played a part in the game. They will try now to increase our school pride and the Prep team.

The team which loses first place, when the big schedule has been played, will be presented with a hearty medal of victory. Among the many who wishes to benefit, there is one who has all the necessary equipment and then to going to miss the team. If you have all the necessary equipment and then to going to miss the team. If you are in favor of the big schedule, the Prep team is not a forerunner. Before we go to college Cotton Candy's has as legitimate a place in your development as is the heavy or learned book. The current magazines must be exercised lest the merely ephemeral usurp the well written art.
