SPLendid BarBQURD Held n TtE CHAPmER HOUSE.
Decorations a Feature of the Occasion—Excellent Music by Quartet.

The Phi Delta Theta fraternity entertained friends Saturday evening at the chapter house on Highland Avenue. The guests spent the earlier part of the evening in informal reception. Later on all assembled in the new rooms where the tables were tastefully set, and enjoyed the full elaborate banquet served under the efficient management of the caterer in charge. Covers were served at 6:15. After the banquet, the Phi Delta Theta chapter performed a number of songs for their friends. The young lady friends were charmed with the presentation of a specialty of the chapter. The volume by Dr. Lockwood is a solid 12 in. in size and has an excellent need supporting the thesis in a frontispiece. Technically, it is overshadowed by a very tasteful and rich-looking book.

In treating his subject Dr. Lockwood has divided his chapters, lending to give the book a very pleasing and harmonious flow of thought. The topics are: "Value of Engineering, Brown's Way of Life, The Path to God, The Human High-way, The Upward March of Knowledge's Money to Men, and Brown's belongings. It has been the author's purpose to enter into any technical details as completely as possible and in detail about the poetry, but rather to reflect on things fundamental in Browning's work and aims. The book should be read by anyone who is interested in the world of art and literature. The style of the book is simple and direct in its appeal. By the skillful use of quotations Dr. Lockwood has been especially happy in illustrating his points. Occasional references to a variety of humorous and delightful notes interested the reader.

The appearance of such a book from a member of the faculty of Allegheny college is heralded with great enthusiasm by the students and faculty of the institution. It means much to the college.
