OLD LYME, CONN.

My dear Miss Tarbell,
I thank you for
your most interesting
letter of May 7th. May
I send it to my brother?
There is merely nothing in
it - that either party
could object to.

It is tragic that
you should have run
into influenza - in
Fusion - of all places.
My experience has been

with these "Winter Reports"
 that they are like
 safety razors - only
 safe when you use
 them with the assumption
 that they are unsafe if
 you use them recklessly.

One is apt to come in
 warm from a walk
 into a restaurant with
 tablecloths fluttering in
 the breeze, with the in-
 evitable (in my case) cold.

I thank you for
 adopting my word
