HARRISONBURG, VIRGINIA

November 15, 1922

Miss Ida M. Tarbell,
Springfield, Ill.

My dear Miss Tarbell:

Various circumstances have delayed my answer to your valued letter of October 23. Miss Elliott is working on the records here - I do not think she has found much that you do not have, but I hope that she may find enough to make the work worth while to you. She does not get down town every day, but I think she is going at the task with reasonable diligence. I shall let you know as soon as she has gone over the records here that offer some promise.

By the way, did you get on the track of John Lincoln's will in Staunton?

I am certainly glad that you and your sister saw both Weyer's Cave and the Natural Bridge. I felt sure that you would not be disappointed in either. Probably you have seen Mammoth Cave by this time.

Mrs. Wayland joins me in kindest regards and best wishes to you and your sister.

Yours very sincerely,

John W. Wayland.
