Dear Ida Tarbell

A set of Lincoln: the War Years has been ordered sent to you--not merely with my compliments--but with respect and affection--and something like reverence for a wisdom and integrity that has lasted so well across the years. In the foreword to the book is much inadequacy; for one thing I should have dwelt in more detail on your work--but this I may get to another time if and when I can get around to those who have created the basic Lincolniana.

Faithfully yours

Carl Sanderson
