Dear Miss Tarbell,

This is just a "thank-you" note in return for the fine letter, filled with good suggestions, which you wrote to me on the 17th.

I can never tell you how surprised and grateful, too - I used to have you say that the "u" and "i" do not show before the "oy" in the original Lucy Hank's affection. When Mr. Warren came to see me in 1928 he assured me, most emphatically, that these letters were much plain in the original than in the photograph. It was upon his statement that I built my article. I am so glad that you saw the document and wrote me just as you did!

Of course I have written the "tail end" of the piece over, and I also made the possible Shipley connection clearer.

Sincerely and gratefully yours,
Myra Hank Kullback
