Dear Miss Tarbell--

Thank you for so good a note. The preface to the book, in which I try to pay my acknowledgements to you, was being reshaped and didn't get into the set of proofs sent to you. I hope to bring it along, and to see you in New York the first week in December. Then I'll tell you too my impressions of the Gary book. A few weeks ago meeting a young man who was read^{ing} Gibbons "Decline and Fall of the Roman Empire" I persuaded him he ought to read your "History of the Standard Oil Company" first of all, and also before tackling Machievelli. .. Good health to you.

Faithfully yours--

Carl Sandberg
