

Feb. 10, 1923

Mr. J. F. Sprague,  
Bement, Ill.

My dear Mr. Sprague:

How kind of you to take the trouble to write me as you did in your letter of January 3, and to send those interesting pictures and the item from the History of Bement.

I had it in mind to get a picture of this very place but had not yet set out to do it. This not only save me trouble but there is an authenticity about the picture which it would not otherwise have.

As to the item that you copies from the History, it seems to me perfectly clear, all that I shall need.

I am really grateful for your kindness, and if you or any of your friends have other Lincoln recollections, believe me, I shall deeply appreciate it if you will pass them on.

Sincerely yours,
