Fall Sports

The fall sports include Men’s and Women’s soccer, cross-country, tennis, women’s volleyball, golf, and of course Football. As we all know, Allegheny’s Football team had a fantastic season in 1990. Though the other Fall sports might have been overshadowed, they all kept up the Allegheny tradition of excellence in sports as well as academics.
WORTH THE TRIP

It was an unusually warm and sunny day for late October especially for Meadville. The date was October 27, Homecoming. There was, of course, a great deal of scrambling as last minute preparations were made on the various floats, and they were finally put in place.

The parade moved along smoothly, except for a slight mishap with the Theta Chi/Alpha Gamma Delta float being a little too tall, and the Kappa Kappa Gamma/FIJI float falling off the truck. Otherwise, the parade was truly perfect.

The football team got off to a slow start, trailing Ohio Wesleyan 10-0 at the half. In the fourth quarter, Allegheny returned for a spectacular win in the last five minutes of play. Jerry O'Brien passed to Jim Carroll for a last minute winning touchdown. The OWU Bishops rallied in the last 30 seconds, but the scoring drive failed and the Gators won the Homecoming game 14-10, making their record 7-0-1. This was a game that was worth the trip to see.

GREEK LIFE

Greek life at Allegheny is one of the focal points of Homecoming Weekend, and a constant source of good times for the campus at large. Although they may be known best for run-out, Greek sing, and Greek week, the fraternities and sororities also sponsor Saturday Night Life Events and serve various philanthropic causes.

McKINLEY’S NIGHTLIFE

Campus Center Cabinet events have become a mainstay of entertainment for the Allegheny Campus. Saturday Night Life features dancing to live bands and Black Tie Video, while McKinley’s presents all types of entertainment, including comedians, folk bands, and hypnotists. Special presentations such as the Dinner Theaters are also sponsored by the C.C.C.

LET IT SNOW

Thanks to the Greenhouse effect, Allegheny had little snow to show for the '90-'91 school year. The campus did get a few inches though. Why is it that there was a fire alarm at 2 AM after the first heavy snowfall? We'll probably never know ...

WINTER AND SPRING SPORTS

The winter and spring Gator athletes had great seasons in the 1990-91 school year. Both basketball teams made it to the NCAC playoffs, but the women's swimming and diving teams gained the limelight in the winter. Seniors Kate Thoman and Melissa Moody both earned their second NCAA Division III Championships in four years at Allegheny. Spring sports also had some memorable athletes. Tennis player Don Shufran and women's track star Katie Tiedemann were awarded Senior Scholar-Athletes honors, while the golf team captured the NCAC crown. 1990-91 was indeed a year for the record books.

SENIOR EVENTS

Annemarie Murphy celebrates with a friend.
The Senior Comprehensive Project, known by many names (most of them unprintable), is the climax of years of hard work. For some, the process starts during the Junior year, but the rest write up their proposals during Senior year. After this formality, the details are familiar to everyone—research, lab work, writing, and finding a title. When all of these are finished, the dreaded oral is the final stage, followed by a state of extreme euphoria, known as being "decomped."
The theme for Senior Week 1991 — The Party with the $57,000 cover charge — was “The Future’s So Bright We Gotta Wear Shades.” The Week began with a trip to American Pie. Tuesday night seniors boarded buses to go to Conneaut Lake’s American Pie. Seniors walked the boardwalk, ate pizza, danced, and caught up with friends. Before the evening was over, one person ended up in the lake and American Pie ran out of beer.

On Wednesday the seniors gathered for Brunch at South Hall and a Dinner/Dance at the Riverside Inn in Cambridge Springs. The evening at the Riverside was very lovely. Many took the opportunity to stroll the grounds.

Thursday evening was the annual Sociological Tour of area bars. The week was rounded out with a picnic up at Robertson Field, where faculty, staff, and students gathered to celebrate before the beginning of Commencement weekend. Some played volleyball, others frisbee, while the rest enjoyed the music.

The week was a chance to spend time with friends before Commencement activities. We will never forget our years at Allegheny and this week was a celebration of those years.

Commencement Week-end came early this year for Allegheny. It was the first May Graduation since 1962, when the school calendar was first changed to terms. There were many activities for graduates and parents to share. In the Playshop students performed “A Flea in Her Ear.” A concert and art display were also scheduled.

On Saturday Reverend James Ottley gave the Baccalaureate sermon before many of the graduating class, parents, and faculty. Afterwards parents met professors at faculty receptions. Some even met the President at a reception at his house. A Senior Dinner was held that evening in South.

Sunday morning, the weather was perfect for commencement. The sun was out, and a cool breeze kept the temperature comfortable. Three speakers addressed the class, the most memorable being W. D. Snodgrass with his “Ode to Lost Brain Cells.” After the ceremony, the traditional boxed lunches allowed the Class of 1991 to meet for the first time as alumni.

Finally, what we all have waited for, Graduation Day!

CLASS DINNER

The traditional class dinner was held in Brooks Hall, as always. This year Dean Wallace Goode was the speaker for the Senior Class. Dean Goode spoke to the seniors about making changes in the world. After suggesting some things that he would change, the Dean finally decided that the least controversial of his choices was to change the size of the pit of an avocado. If only all decisions could be so easy.

EDITORS

Class of 1991

We hope that you enjoy this year's yearbook. It took a long time to get everything together, but it was a fun job, too.

When we began working on this, we decided that "Remember When..." would be a good theme since this is a senior memory book. We did a lot of research to find historical facts about the school for the segments at the bottom of the pages. We found so much interesting information that we decided to do a whole section on Allegheny's History. We also included a World History section of the years that we were in school. So if you missed anything, maybe this section will catch you up.

We tried in 80 pages to include the major happenings during the Allegheny year and many different faces and places. We hope that you are happy with and will enjoy the results of our work for years to come.

IN MEMORIAM
Dr. Wayne Brewer
1952-1991

Dr. Wayne Brewer arrived at Allegheny College in 1979 as a member of the geology department. In a written statement, his friend and colleague Dr. Bob Schwartz had this to say about Dr. Brewer: "It is the exceptional teacher who is driven by love for a subject, who has an unusual capability to identify higher level questions of fundamental importance, who continues the search with purity and with requisite demands of research-like approach, and then, who shares the intellectual adventure with students and colleagues in a clear and meaningful manner."

All Allegheny mourned the passing of Dr. Brewer while still comforted that we were able to benefit from his experience. The theme for Allegheny’s 175th year was “Celebrating Great Teaching.” Dr. Brewer exemplified the spirit of great teaching with all of his students and will be remembered by Allegheny College - not only as a teacher, but as a friend.
