

May 23, 1929

Mr. Arthur G. Warren,
Industrial Museum of American Steel & Wire,
Worcester, Mass.

My dear Mr. Warren:

I have just had a talk with Mr. W. P. Palmer, President of the American Steel and Wire Company, about the Museum and the possibility of using pictures of certain of your exhibits in a Life of Elbert H. Gary which I am doing for McClure's Magazine. Mr. Palmer assured me that this was possible, and all that would be necessary would be for me to write you.

One picture in particular I have in mind is that which shows James A. Farrell as a wire drawer. Will you, at your leisure, send this to me?

Another picture that I would like very much is that of the collection of seals which were acquired at the time of the organization of the American Wire and Steel in 1899. Is this possible?

I may want to ask you for other pictures later, and I trust that I will not be imposing on your good will in doing so.

Sincerely yours,
