

United States Steel Corporation

71 BROADWAY EMPIRE BUILDING

New York, July 17, 1924.

OFFICE OF THE CHAIRMAN

Miss Ida M. Tarbell,
120 East 19th St.,
New York, N. Y.

My dear Miss Tarbell:

By inquiry in our Law Department I find that the arguments in the Government suit were not printed and that our typewritten copy was sent out of town some time ago. I think, however, that we can secure a copy within a few days to send you, containing the argument of J. W. Davis, representing the Government.

This will confirm handing you on Tuesday, July 15th, a copy of the Index to the Testimony, which is a booklet of 138 pages, ~~and other papers.~~

We shall look up and advise you shortly with reference to item 4 of your letter of July 10th, Economies effected by the United States Steel Corporation.

Please let me know if and when any specific questions arise upon which we can co-operate, and be assured that we will do our best to respond promptly.

Very truly yours,

Secretary to Judge Gary.
