December 2, 1935.

My dear Miss Wolfe:

In Chapter IV ("Electricity Invades Industry") of Miss Tarbell's manuscript there are several footnote citations which we are unable to complete since the publications referred to are not in the Harvard College Library.

The two publications concerned are:

- C. E. Skinner, Lighting the World's Columbia [Columbian?] Exposition. We would like to have the date of the reading of this paper and also the page or pages referred to in the case of each footnote. [This paper is cited on pages 136, 139.]
- F. J. Sprague, Journal of the Maryland Academy of Sciences. In connection with footnote references to this we would like to have, in addition to the volume number, the year, and the title of the article. Instead of et sq. (p. 145) we would like the inclusive pages. [Reference to this publication is made on the following pages: 145, 147, 149, 150, 151, 152.]

We will greatly appreciate having you supply the above information.

Sincerely yours,

Elizabeth F. Hoyle
