Dear Miss Tarbell:

As I promised you yesterday, I am sending you separately an "Updegraffed" copy of my little book, "Obvious Adams." It is rather crude and naive, as a first story is almost certain to be, but it seems to have a germ idea which has caused it to live for many years. Please accept this little book with my compliments for your library.

It was a great pleasure to spend the day with you yesterday at the Time Capsule ceremonies. I hope our paths cross again before too long.

Sincerely yours,

Robert R. Updegraff
