Public Opinion

J. Villard
Way in Army
In public and under military rule, the public's interest is to be served. The public is managed by smaller groups - constitutional authorities. The public will momentarily demand methods, laws, etc., that are accepted and desired. Public interest is a matter of convenience and for the public. Equality is essential in regard to their studies and character. Personal property, house, or farm, is not the public's concern. The public is compelled to accept duty of care for all.
