

Unemployment: through technical advance:

The technological unemployment treated in
Cosmopolitan article. Murray speaks of the plant in Armco,
which I referred to in the Cosmopolitan article, as a separation
insurance. He says that the men they could not place ~~about~~ ^{that}
five hundred out of a thousand ~~in~~ the new process/was introduced,
they trained, but when that did not succeed, and I have some
items on reasons why it does not succeed (Quote Coffin's story
in Cosmopolitan notes) they were given as a separation wage
~~of~~ \$1000 to \$1500. Combined with this was ^{also} an organized effort
for ~~the~~ employment bureau to find them work outside.
