May

Dear Miss Chandlers

In looking over Dr. Hervey's letters I find one dated October 26th - no year. The Doctor seems to have pretty consistently omitted the year from his letters. In this particular one he writes to Mrs. Young, having failed to get an answer from Mr. Young, asking data for a sketch which the laupentian wanted.

Was this information sent, can you tell me, and if so can I have a copy? Also was the sketch written by Dr. Hervey and if so what was the date?

I am enclosing the letter for your guidance after having made a list of the questions Dr. Hervey asked. There is no hurry about the answer. You must not let me over-load you.

Thank you for securing me inscription on the fraternity House.

Very sincerely yours

Miss Gertrude Chandler
