Dear Miss Russell:

Below you will find my address at Tucson. I shall appreciate, of course, any fresh material that you care to send me. I like to get things in my mind as they come out, you know.

The material on the power question I would like in Tucson for the reason that I gave you on the telephone.

I hope you are going to keep well through the Spring. I feel very lucky in having work that takes me into a sunny climate - lucky and almost selfish! With appreciation of all your cordial co-operation, believe me

Very sincerely yours
