OFFICE OF THE
CHAIRMAN OF THE BOARD

December 5, 1932.

Miss Ida Tarbell,
120 East 19th Street,
New York City.

Dear Miss Tarbell:

Thank you for your note of the 30th with its enclosure. The processes of conversion are always mysterious. Certainly I have no notion whatever regarding the causes of this. As further evidence of it I enclose herewith copies of two letters which came to us here quite out of a clear sky. The second may perhaps contain a clue, but hardly seems sufficient to account for such a remarkable about-face. The item purporting to relate to me in the first letter may amuse you. Mr. Packer acknowledged the communications in accordance with attached copies.

Sincerely yours,

Everett Case
