Note for Minniss Letter:

Miss Minniss called. She is not an altogether inviting looking nurse. One of those people who through poverty and hard work have taken on a certain grimy look. I have a feeling that I would not want her to put her hands on me which I fancy would be pretty universal. However, she does not want people like myself who could pay regular prices for the work. She wants the poor, particularly the crippled children. A fine idea and it is a way to use the old on <sup>which are</sup> tasks/calling for help where there are not enough of the vigorous well-trained. That is, we can be used in easing off when we get old and beyond professional work the pains of those poorer than ourselves. That is I think what is in Miss Minniss story.
