

static - artificial

Lunarium Runy.

Between great body of Laboratory
meters - experimentally - demonstr.
shifting. Brought great changes
in spirit - shown what can be
done - study imitated.

1. The Bulbosity of Lateral Machine
plays a part - in this taking
over tasks which killed men.
Magnet - in sleep can work.
Certain machines release under
seem almost human.
Indeed industrial machine may be
the machine -

Many - made man -

2. Law of Heavy Lateral -

By finding paper too slow
might it speed carry - any
held - selecting - men - say
then co-operating a best

2

declared that the purpose
of science will ultimately
make industrial injustice
as self destruction as
it is now making interna-
tional injustice
that it is possible to
that industry can only
hope to be sustained by
simplifying & reducing the
endure of white & black
even taking industry needs
in the world under
the sympathy & the support
that of the Christian Church
the C. C. can make relations in the world of
the B. of Man is is but surely
hard & hard

2
may found - apply to
all labor - most unskilled
can be taught sufficiently
with it? A human being
is lifted by it -

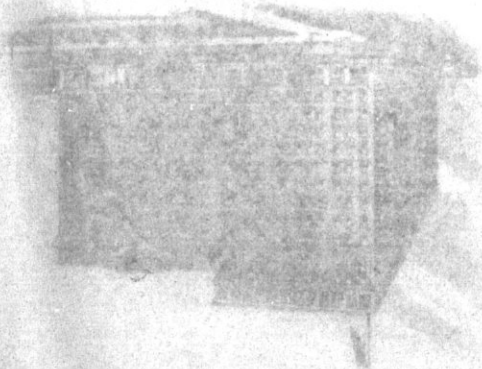

(3.) Long Day - Gardens
Lecture -

(4.) Safety - ^{Bradford} 54 - 63 - 100

stabilizing employment

see 8 - 10 - 100

of honest-co-operation -

peasant. 17th century. more giving
than three of Russian peasants
sowing seed when sowing - no
crop next year - undisciplined, capital
attack - coming ways - reason
for movements undisciplined -
All years not alike.
Russia & Brooklyn getting worse
refused - more of capital
Education - needed - all Latin schools
help - things so often based on
desire to get a case against capital
- a way to outwit capital - Learn
all to good - Reach few -
need some method of communication
in - discussing sharply but
2 decisions - agree that correct
best
