April 3, 1939

Dear Miss Rowley:

I did not until yesterday have time to look up the address you gave me for the pivot Swing displayers. I found that the Universal has an excellent assortment. After considerable examination I concluded that for our purpose the 10 Wing Wall Pivot Displayer, No. 612 AB would best serve our purpose. It would be fine if we could have one now. I could use it to advantage in my talks.

The advantage of the green burlap is that you can show your items without filling them with thumb tack holes.

As for a permanent Swing Displayer for the history I am beginning to be doubtful. It would take a very large wing and I do not ~~xxxxx~~ think the text could be so easily read as in its present form. It would be much more convenient to use it as a book, but it that is to be done it should be a book of photostats as the present collections would not stand much use and would both crack and fade.if ~~xx~~ exposed.

But we can talk of that and everything else. My present plan is as I am writing Dr. Tolley and Miss Skinner to reach Cambridge Springs Friday morning, April 14th. If I am not too tired and it is convenient I probably shall go on to Meadville after depositing my luggage at the Inn to look oaver the field. I am much interested in the undertaking.

Faithfully yours

Ida M. Tarbell
