

Staunton, Va.

Nov. 29, 1922

Dear Miss Harlow:

Your letter came yesterday enclosing your check for \$15.00 and engaging me to do your Princeton work at the place. I am doing some work for the Henry James at the time, but am taking up the Princeton case and carrying them along together as long as the Henry work lasts.

I have already examined the Henry works and do not find any entries in the name of Princeton.

The Henry James & have had some money when they came to Va. and bought your farm in

Princeton, N.J.

The card reads are to examine and the photographs

I am also sent you a notice of the

of the Abraham Lincoln Company and hope

to have that the Company are in active service.

Will this be done as promptly as I can, and do not give up. I am doing the work as promptly

de I can -

I am glad to hear more than the labor for
which you pay me. Mr. Fincen's death
was a great calamity to the South and we have no
consolation.

Please pardon the use of French, as I am writing
in a French style.

Sincerely Yours.

John S. Knapton.

You are just in the Oct. no. 1922, of the 7th
Magazine of History & Biography some men by my camp-
mate. Fincen Fincen's company appears in
the First Battalion (Roughness?)
