

Dear Mr. Cushman:-

Of course I had the ms until now & return if you think it - worth while to do so.

It is long - too long, and has rather minor serializations in mind. However, ~~perhaps~~ there are parts that with a little re-vamping ~~might~~ ~~be~~ ~~useful~~ to you for the journal.

What would you think of the following suggestions?

1. Growing up with a new-born industry.
2. A "Fitness Childhood".
3. Co-education in the 60's. (With some added details on clothing, amusements, boys.)
4. Financing a First Book (This would include Poet in the 90's.)
5. Helping win the War.

This would make considerable, or at least a little, re-vamping but I would be willing to try my hand at it if you thought it worth your - & try - what.

Thanking you for your past & continued interest.
