

File Gummy

January 18, 1930

My dear Mr. Clemenson:

Indeed the name Eveready is not new to me. I have appreciated thoroughly the interest you have shown in broadcasting "He Knew Lincoln." You have done it in the spirit of the story or at least what I tried to make the spirit of the story, with a care - a sense of values that I regard most highly. Let me thank you for what you have done for "He Knew Lincoln."

Now, as to your kind thought coming out of my little safety talk last night - the flashlight is not here yet, but I am sure it will be. If it does not arrive on time I shall certainly notify you. I am only writing this letter now because I am leaving town tomorrow and might not have another opportunity.

The flashlight shall go into my bag and I know it will be of real use to me. I am obliged in my profession to spend a good many nights on the train and a flashlight is most useful and indeed it is always a safety device to have handy.

Thanking you for your thought of me,
believe me

Very sincerely yours
