

October 26, 1928

Mr. A. G. Warren
American Steel & Wire Co.
Worcester, Mass.

My dear Mr. Warren:

Thank you for your prompt attention to my letter of October 22. Nothing would please me better than to follow your suggestion and go now myself to make that visit to your Museum, "thrice proposed and thrice postponed" as you say. Believe me, nobody regrets it so much as I, but it is quite impossible for me at the present moment to go to Worcester.

I must be off in a few days for my work at Knox College. If you would allow me to have the two volumes to take with me for my class room work, I can promise you that I shall send them back to you at the end of December when my conferences end. I shall be very grateful if you can see your way to allow me to have the two books.

Very sincerely yours
